

I oppose loosening the rules designed to promote and protect diversity of media ownership. These rules were adopted to ensure that the public would receive a diverse range of viewpoints from the media, and not simply the opinions of a handful of media conglomerates.

The FCC was founded to support the public interest and preserve democracy and the free flow of ideas. How can that be possible when only a few corporate conglomerates are being allowed to control everything? You work for the people. I implore you to remember that.
